Candidates for available positions would have strong communication skills paired with technical experience and ideally some construction background. Revit knowledge is preferred, and CAD, Lumion, Photoshop and other software knowledge is also desired. We are a team-oriented firm that is built on a wide range of talents, and collaboration. Growth within our firm is encouraged.

General Qualifications:

- Bachelor's or Master's Degree in Architecture or related field
- Experience in Architecture preferred, though a parallel profession (landscape architecture, engineering, construction management) could apply
- Willingness to collaborate with our design team
- Ability to manage projects through all phases of development (Design, Drawings, Construction Administration)
- Working Drawing production skills, in Revit or CAD.
- Enthusiasm for working in an active and inspired firm in Bozeman, Montana

We offer top compensation and opportunities for growth in our partner-managed firm. Benefits include, but not limited to: paid sick/vacation/holidays, medical/dental/vision insurance plans, parental leave, 401k and profit sharing, and support with continuing education, professional development, and licensure.
